Instruction Manual

Model: EHVF4590

High Velocity Floor Fan

1- SAFETY INSTRUCTIONS

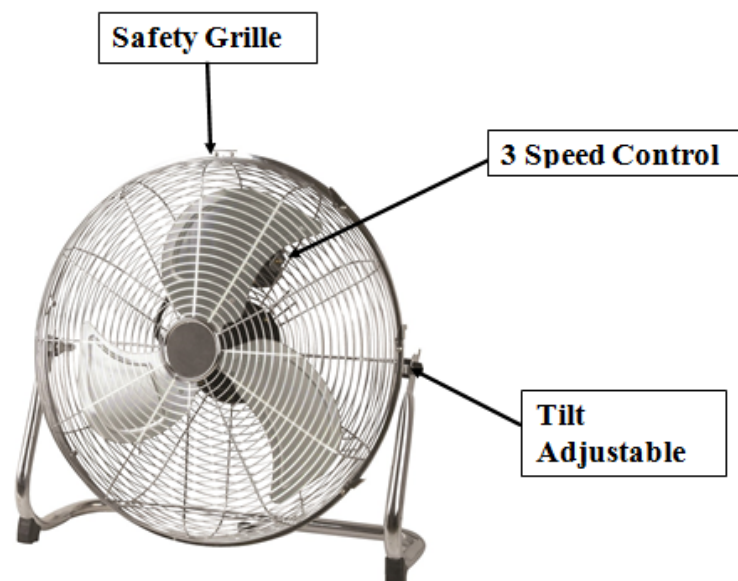

IMPORTANT NOTICE

Note:-Read these instructions fully before commencing assembly and operation of the fan. **Retain these instructions for future reference.**

- a) Do not use the fan if the plug or power cord is damaged.
- b) Never insert fingers, pencils or any other object through the grille when the fan is running.
- c) Unplug the fan from the power socket when not in use and when moving it from one location to other.
- d) Unplug the fan from the power socket before cleaning.
- e) Do not use or place fan in wet areas such as bathrooms and shower rooms etc
- f) Do not use the fan outdoors and do not allow fan to become wet, any water or liquid entering the fan could cause an electric shock hazard.
- g) Do not cover the grille when the fan is in operation.
- h) Do not allow children to operate the fan.
- i) Completely assemble the fan before use.

2- INSTRUCTIONS FOR USE

- a) Remove the cable tie and unravel the cord set before operation.
- b) The fan and motor assembly is attached to a hinge which will allow it to tilt up or down and remain in the selected position.
- c) Press button 1 for a low speed, 2 for a medium speed and 3 for a high speed.
- d) Press '0' to switch the Fan off.

3- CLEANING AND MAINTENANCE

- a) Turn off and unplug the unit prior to cleaning.
- b) To clean the blade and grille assembly, first remove the safety grille, unscrew the locknut and remove the blade from the Fan. Wipe them clean with a slightly damp sponge.
- c) Clean the motor housing and body assembly with a clean, damp cloth and wipe dry.
- d) Never spray with liquids or submerge the Fan in water or any other liquid.
- e) Do not use flammable liquids, chemicals, abrasive creams, steel wool or scouring pads for cleaning.

4- STORAGE

- a) Switch off and unplug the fan.
- b) Coil the cable loosely. Do not kink or pull the cable tight.
- c) Store your fan in a cool, dry location.
